COMMISSION

Brussels, XXX
[...] (2025) XXX draft

COMMISSION IMPLEMENTING REGULATION (EU) .../...

of XXX

**listing the products, components and waste streams considered as having a relevant
critical raw materials recovery potential under Regulation (EU) 2024/1252**

(Text with EEA relevance)

This draft has not been adopted or endorsed by the European Commission. Any views expressed are the preliminary views of the Commission services and may not in any circumstances be regarded as stating an official position of the Commission.

COMMISSION IMPLEMENTING REGULATION (EU) .../...

of **XXX**

listing the products, components and waste streams considered as having a relevant critical raw materials recovery potential under Regulation (EU) 2024/1252

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2024/1252 of the European Parliament and of the Council of 11 April 2024 establishing a framework for ensuring a secure and sustainable supply of critical raw materials and amending Regulations (EU) No 168/2013, (EU) 2018/858, (EU) 2018/1724 and (EU) 2019/1020¹, and in particular Article 26(7) thereof,

Whereas:

- (1) Article 26(1) of Regulation (EU) 2024/1252 requires Member States to adopt national programmes containing measures designed to increase the circularity of critical raw materials.
- (2) Pursuant to Article 26(7) of Regulation (EU) 2024/1252, the Commission is to list the products, components and waste streams that are considered as having a relevant critical raw materials recovery potential. That list should serve as a reference for the scope of the national measures referred to Article 26(1) of Regulation (EU) 2024/1252. The list should not prevent Member States from considering additional products, components and waste streams for critical raw materials recovery in the context of their national circularity practices.
- (3) The list provided for in the Annex to this Regulation contains the list of products, components and waste streams that the Commission considers as having a relevant critical raw materials recovery potential, taking into account the criteria referred to in Article 26(7), second subparagraph of Regulation (EU) 2024/1252.
- (4) Extractive waste is not included in that list, since measures designed to promote the recovery of critical raw materials from extractive waste are already covered by Article 27 of Regulation (EU) 2024/1252.

HAS ADOPTED THIS REGULATION:

Article 1

The products, components and waste streams listed in the Annex to this Regulation are considered as having a relevant critical raw materials recovery potential within the meaning of Article 26(1), points (b) and (c), of Regulation (EU) 2024/1252.

-

¹ OJ L, 1252, 3.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1252/oj>.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Commission
The President
Ursula VON DER LEYEN
