EuRIC TEXTILES

The branch evaluates and provides input on the implementation of the EU's textiles strategy, such as the **development of appropriate eco-design criteria** for textiles including **mandatory recycled content targets** and the development of **end-of-waste criteria** for textiles.

OUR MEMBERS & PARTNERS

“

*EuRIC Textiles is a powerful engine to advocate the interests of its members on EU level. We foster an environment where not only policymakers, but a wide range of stakeholders in the textile industry, are guided to **better understand the elements of a sustainable and circular textile value chain.***

”

Mariska Boer

EuRIC Textiles Branch President

CONNECTING THE KNOTS FOR A CIRCULAR FUTURE
23 NOVEMBER 2023 14:00 TO 16:00 - BRUNNEN

EU STRATEGY FOR **SUSTAINABLE & CIRCULAR TEXTILES**

The Commission's 2030 vision for textiles is that all textile products placed on the EU market are

durable,
repairable and
recyclable,

to a great extent made of recycled fibres, free of hazardous substances, produced in respect of social rights and the environment.

Key actions in the Textiles Strategy

Set **design requirements for textiles** to make them last longer, easier to repair and recycle, as well as requirements on minimum recycled content

Introduce clearer information and a **Digital Product Passport**

Tackle greenwashing to empower consumers and raise awareness about sustainable fashion

Reverse **overproduction and overconsumption**, and **discourage** the destruction of unsold or returned textiles

Propose mandatory **Extended Producer Responsibility for textiles with eco-modulation of fees**

Address the **unintentional release of microplastics** from synthetic textiles

Restrict the **export of textile waste** and promote sustainable textiles globally

Incentivise **circular business models**, including reuse and repair sectors

Encourage companies and Member States to **support the objectives** of the Strategy

LEGISLATIVE ACTIONS AFFECTED BY THE EU TEXTILES STRATEGY

Waste Framework Directive (WFD)

Development End-of-Waste criteria

Eco-design for Sustainable Products Regulation (ESPR)

Green Claims Directive

Preparatory Study on textile products

Textile Labelling Regulation

Waste Shipment Regulation (WSR)

PUBLICATION PROPOSAL WASTE FRAMEWORK DIRECTIVE

EPR VISION OF EUROPEAN RECYCLERS

- **Scope:** Manufacturers, importers and distributors who place textile products on the market for the first time (incl. online sales).
- **Material scope:** post-consumer clothing and home textiles as well as apparel, clothing accessories and footwear.
- **Financing:** re-use and recycling activities, R&D and communication.
- **Eco-modulation:** Fee eco-modulation to encourage the design of more durable and resistant products as well as the use of recycled materials from post-consumer textiles.
- **Administration:** Producers and representatives of the end-of-life phase of textiles must be involved in the administration of an EPR scheme.
- **Targets:** Collection, re-use and recycling targets within the WFD. Recycled content targets within the ESPR.
